

September 25-26, 2019—Eugene, Oregon

CALL FOR PROPOSALS – SUBMISSION DEADLINE: FRIDAY, MAY 31, 2019

SUMMARY

Workforce is a major and complex topic. In order to ensure that Oregonians have the skills to meet the needs of Oregon businesses, we need to establish even more effective partnerships and reimagine our understanding of education and work. The Oregon Workforce Partnership provides leadership that promotes and advances Oregon’s workforce system. Our WORKing Together 2019 conference brings together businesses, educators, public agency leaders, community-based organizations and workforce professionals to explore local, state and national best practices, emerging workforce trends and innovative solutions.

This year our conference theme is *Reimagining...*

We are offering workshops separated into three conference tracks: 1) Reimagining Work, 2) Reimagining Partnership, and 3) Reimagining Education. We are seeking proposals from individuals, groups and organizations to present a session on one of these tracks. We encourage proposals that can foster learning communities, and generate great discussion and interactive dialogue as we seek solutions together. **Proposals should showcase innovative approaches, practices and models.**

SESSION PROPOSAL SELECTION CRITERIA

- o **Scalability.** We want attendees to leave with a concept or idea they can put to use, a project they can implement or replicate, or new knowledge of a subject to take back to their own work. Proposals should generate meaningful and actionable ideas that are scalable, accessible to various types of organizations, and will launch local discussions.
- o **Creativity.** We are interested in creative problem-solving that goes beyond what has been tried before and will inspire action and thinking outside of the box—reimagining. We are particularly looking for innovative proposals that will inspire solution-building.
- o **Connectivity.** We seek proposals that assemble linkages and demonstrate innovative approaches to system building. This event aspires to bring stakeholders together to create collaboration and to break down traditional silos, reduce duplication and increase effectiveness.
- o **Quality.** We are looking for high-quality session abstracts that describe how the proposal will convey a clearly articulated subject and objective. We strive to showcase proven best practices and innovative approaches.
- o **Inclusivity.** We seek to include diversity in our presentations and speakers. We are committed to ensuring presentations are engaging, inclusive, and interactive for everyone. Preference will be given to proposals that outline participative and experiential formats.
